Minutes of Washington State Convention 1958 of the A.A.M.M.

The meeting was called to order at 10:00a.m. Friday, June 6, 1958 in the New Washington Hotel in Seattle, Washington. Eleven voting members were present and the meeting was opened by Arthur Mann, acting in the place of Pryor Canaday who was unable to be present due to illness, by presentation of the U.S. Flag and the Group song God Bless America. John Murray gave the opening prayer and a Welcome was extended to all by the Seattle City Council in the person of Floyd Miller.

The meeting was then turned over to Pete I. Eitriem, State President, who explained the rules of order and expressed his *Appreciation* to the board of directors and officers for the past years work and co-operation together. He gave a brief report on the Washington State resolution on withdrawal cards that was enacted at National Convention last year. (page 74, paragraph 2 of the by-laws).

The Minutes of the last convention were read and approved. The Sec'y-Treasures report was made and the auditing committee was appointed. These were: Leston Short, Arthur Mann, and John Murray. Many commented on the extreme care used in handling the fund the past year. The budget of 1957 was read and expenditures were compared with it. 58-59 budget committee reported, and after comment and questions were answered, the tentative budget was approved. Arthur Mann reported that the legislative committee had nothing new to tell us, but that they were on guard at all times to protect the Massage profession.

There are no restrictions to the Masseur and Masseuses staying in their own bounds as yet, and we were assured that nothing will get by them in Olympia. Regina Williams asked what happened to the Minnesota Massage act and told the Masseurs got a Massage Act passed and then relaxed their Vigiliences and allowed the M.D.'s to act on the licencing board and they in turn made the *Vexation* so stiff that Masseurs could not pass them. Dorothy Mann stressed that we still can't relax for there is always someone trying to tack amendments on the now existing law.

Arthur Mann reported that the Membership Committee is plugging

Arthur Dunbar suggested that a code of ethics be made that it be unethcial for a masseur to make derogatory statements concerning other professions without severe provocation. On June 25th, Spokane Chapter is having a combination picnic, pot luck lunch, meeting and Convention report at the Newman Lake Cottage of Robert Mc Clure. Convention report as seen through the eyes of John A. Murray,
R.M.

Now that the ^{smoke} ~~smoke~~ of our state convention has cleared away and all is silent for another year. Much to the relief of the convention committee we came through in the black. We ~~saw~~ ^{see} that to a wonderful organization, of wonderful people, who always come through when the chips are down.

We had many dissappointments, First,- Our own members right in the immediate area of Seattle failed to attend Convention, to learn what we are trying to do for them, and lending a voice and sholder, to help. Second- in our efforts to acquaint prospective members with our association, we sent out invitations to all non-members, practicing Massage Therapy, within the Seattle area, to join with us at banquet, following the convention, a dozen or so called and made reservations, about half of those came, result-- we had five or six dinners to pay for. Third-- In order for our own members to make a success of conventions in the future, we must give it our full time and attention. We can not, in a small association such as ours, be tardy, attend part time, leave early, or attend to our own personal buisness or pleasure, we know from one year to the next how many days, convention time will take, the attendance of every one, full time is needed to make it a success, so we should arrange our personal affairs so that we can give our all to convention.

Personly our banquet was a dissapointment, in quality, quantity and attendance, I have had for better dinners at Von's here in Seattle for at least a dollar less.

Dr. Hohn E. Stewart, orthopedic surgion, gave us a very interesting word picture, of a bone fracture, and its after care, and the value of Scientific Massage to promote faster healing. Dr Stewart stated nothing can compare with the well trained hadns of a qualified masseur or masseuse, He frowned upon the technicians with an office full of imprssive gadgets, with flashing lights, etc. impressive to many patients, but usually no more necessary than the needle of many "shot" minded Physicians.
